# A CRAZE THIS SEASON

The picture hat of black straw with its rose one makes a smart contrast with the rose colored coat, and the long gioves of embroidered silk match the coat in shade. The pleated skirt confined under a lace hand is strikingly new, the skirt trailing all around and showing, when lifted, high heeled buttoned hoots of pink saim.

# FLOOR CLOTH FOR THE SEWING ROOM

To Be Used When the Dressmaker Comes.

Where there is no especial room in the house set apart for a sewing room, or if you live in a boarding house or amail apartments, you will welcome the knowledge of how to make a serviceable floor cloth for the room to be used when the dressmaker spends the day at your home.

Make a square of hedticking or heavy denim as large as the size of the room will permit. Sew the heagths of material together, lapplug the edges one-quarter of an inch, and stitch down firmly on both edges. Finish all broken from the heavy size of the room of the down firmly on the down firmly on the down firmly on the down firmly of the outside of the square and fasten the ends securety. After the day's work is over and you with to clean up the rosm for the evening, by drawing up the rose that the down for the firmly distributed in the square and fasten the ends securety. After the day's work is over and you with to clean up the rosm for the evening, by drawing up the rose ign to the special to the day's work is over and you with to clean up the countents of sight in a closet. By this plain no saveping is necessary, and the contents of the bag can be asserted at leisure, avoiding the loss of small articles and pieces of material that are large enough to save.

A covering like this is splendid, also, for the improvised nursey, where the kiddles are allowed to ceatter their toys about and mother must pick them up before the room can be used for any other purpose. It costs but little, and saves, oh, such a deal of time and aching back usused by bending over to pick things up from the floor.

### FLOWER HOLDER THAT IS FASTENED TO THE WALL

Every girl enjoys having flowers in her room, and she will surely find a place to put them when the flowers are given to her, no matter how small the room or how fully the available space may be already occupied. But it is not always an easy task to find the exact spot to put the flowers if the room is not a very large one. Girls usually collect many trifles, all of which stake specified by using, a flower-holder that is not expected to the wall. It can be so placed that one gets the full benefit of the beauty and sweet door of all the flowers, and there is never any danger of spilling has well to the wall. It can be so placed that to net gets the full benefit of the shape of a triangle, with one side perfectly flat to put against the wall. The shape of a triangle, with one side perfectly flat to put against the wall. The other side rounds out. The effect is like half a vase with no standard, as if the wase were cut down through the middle and flat plece of glass fitted across the fideling on the fideling of the same of a large nall which is driven into the wall. The wase must, of course, not be fastened permanently to the wall. It must be easy to take it down for fresh water and to wash it.

Even when a girl has plenty of roem for a large vase of flowers on her table at few extra once in a wall vase beside her dressing table will add much to her pleasure.

# THINGS TO REMEMBER IN CHOOSING WALL PAPER

It is important, when selecting a wall paper, to consider durability as well as beauty, which includes suitability. White papers are not always ill-wearing, and one that is giszed will resist dirt and look bright and fresh far a long time. Bott-surfaced whites, or any other color, however, not only pick up every mark and collect dust, but also often shed a minute powder. Red papers do not suit hat rooms, but warm up north once charmingty. When turning an upstairs bedroom into disting room, the use of a rich red paper will do much to remove the plain effect that is often a drawback.
